📍 Mehran town sector 6H house A42, Karachi 05444, Pakistan

SUMMARY

I am a forward-thinking Web and AI Developer shaped by Panavercity, skilled in building sleek, high-performing web apps using Next.js, Tailwind CSS, and Sanity CMS. I am passionate about creating cutting edge, real-world solutions that mix traditional foundations with Gen Z creativity

EXPERIENCE

Freelance Web & AI Developer

Governor Sindh Initiative for GenAI, Web3, and Metaverse

📅 01/2023   📍 Karachi, Pakistan

Freelance Web & AI Developer

- Designed and developed responsive web applications using Next.js, Tailwind CSS, and Sanity CMS for clients in construction, food services, and personal branding
- Integrated API-driven content and implemented dynamic CMS workflows for easy client updates
- Developed AI chatbots with Gemini API and OpenAI Agents SDK for interactive and automated customer support
- Optimized website performance, achieving up to 45% faster load times through code splitting and image optimization
